TECH CENTER 1600/2900

DECLARATION OF KIRON M. DAS

1. I am the inventor of the above-captioned U.S. Patent Application.
2. A deposit of a hybridoma producing monoclonal antibody DAS-1 (previously

*Considered  
5-9-02  
Bh*  
called 7E<sub>12</sub>H<sub>12</sub>, IgM isotype) has been made in the American Type Culture Collection, 10801 University Blvd., Manassas, VA 20110-2209, and the deposited material has been accorded a specific accession number, namely HB9397. All restrictions upon public access to the deposit will be irrevocably removed upon grant of a patent on this application. The deposit will be replaced if viable samples cannot be dispensed by the depository.

Name of Person Mailing Paper

*Miyabi Grace*  
Signature of Person Mailing Paper

3. The material has been deposited under conditions that ensure that access to the material will be available during the pendency of the patent application to one determined by the Commissioner to be entitled thereto under 35 CFR 1.14 and 35 USC 122.

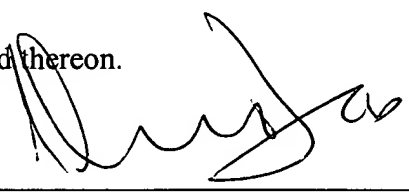

4. The deposited material will be stored with all care necessary to keep it viable and uncontaminated for a period of at least five years after the most recent request for the furnishing of a sample of the deposited microorganism, and in any case at least thirty (30) years after the date of a deposit or for the enforceable life of the patent, whichever is longer.

5. I acknowledge the duty to replace the deposit should the depository be unable to furnish a sample when requested due to the condition of the deposit.

6. I declare that all statements made herein are based on my own personal knowledge are true and that all statements made on information and belief are believed to be true; and further that these statements are made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or both, under Section 10001 of Title 18 of the United States Code, and that such willful false statements may jeopardize the validity of the application or any patents issued thereon.
